Scarcity of carbon black

3269. SHRIMATI RENUKA CHOWDHURY:

SHRI MUKHTIAR SINGH MALIK:

Will the Minister of INDUSTRY be pleased to state:

(a) whether it is a fact that there is scarcity of Carbon Black in the country at present;

(b) if so, what are the reasons therefor;

(c) whether the scarcity of Carbon Black has affected the production of rubber industry of the country; and

(d) if so, what steps are being contemplated by Government to meet the shortage being experienced by the rubber industry?

THE MINISTER OF INDUSTRY (SHRI J. VENGAL RAO): (a) and (b) It is a fact that there is a shortage of 'hard grade' Carbon Black in the country mainly used in the manufacture of Bus and Truck tyres. The main reason for the shrotage is due to the increased demand for this product, in view of the increased production in Bus and Truck tyres targeted for the current year. There is no shortage of soft grades of Carbon Black as enough raw material is available for them in the country.

(c) Yes, Sir. Some sectors of Rubber Industry including production of tyres have been affected.

(d) Government have allowed the import of hard grade Carbon Black to manufacturers of Bus and Truck tyres to tide over the shortage. Government are also taking steps to allow the import of high BMCI carbon black feed stock for manufacturers of had grade carbon black so that their production capacity is fully utilised and carbon black of all grades is adequately available. At the same time efforts are being made to maximise production of high BMCI feed stock from indigenous refineries.
